Modifying your home with Assistive Technologies

MediTek is a global stairlift manufacturer, with its company headquarters and factory based in the UK at Fishburn, near Sedgefield, Co Durham.

Everyone at MediTek understands the real difference assistive technologies, such as domestic stairlifts can provide in helping to improve lifestyles and enabling you to enjoy more independence at home. That is why when you choose a MediTek stairlift you can be assured that your needs, comfort and dignity lay at the heart of our business practice.

One of the great benefits of life today is the ability to let technology take the strain. Stairlifts exist to make life easier and allow us to enjoy a more relaxed, safer and leisurely lifestyle.

Modern homes are abundant with machines, gadgets and devices such as dishwashers, electric lawnmowers, vacuum cleaners and remote controls, all designed to aid, speed up or improve everyday activities.

From time to time, climbing steep stairs can be awkward and physically demanding for some people. A stairlift is an excellent product designed to simply provide an easy and convenient way of accessing upper floors quickly and safely, whenever required.

The MediTek stairlift range has been designed specifically for domestic application and will fit unobtrusively and gracefully into your home.

MediTek stairlifts come in a choice of different seat styles and upholstery colours – see specification sheet on page 7 for details*

Meeting your individual needs

At MediTek we appreciate that staircases, like people, come in many shapes and sizes. This is why our versatile product selection is wide-ranging enough to ensure there is a MediTek model just right for you.

To ensure the right stairlift is specified, trained advisors will visit your home by appointment. The advisor will consult, survey and assess the most appropriate solution to your specific needs and circumstances.

Whatever your requirements, be they straight stairs, curved stairs, narrow stairs, outdoor stairs, heavy duty or power assisted needs, rest assured there is a MediTek stairlift solution for you.

When not in use our stairlifts can be folded away and with slim profiles will not obstruct the stairway for use by other people.

Manual or optional powered swivel seats make alighting straightforward

Curved Lift

For staircases with multiple flights, corners and quarter landings

Perch Lift

For people who may have difficulty bending their knees

External Lift

Ideal for any stairs exposed to the elements, such as gardens or cellars

Comfort and safety

To ensure your lift is simple and effortless to operate, MediTek stairlifts have been specifically designed with ease of use and comfort in mind. The continuously charged on-board batteries ensure that your lift will continue to operate even in the event of a mains power failure.

The product range includes a number of safety features that will provide you with many years of safe and reliable enjoyment and use of your stairlift.

Safety edges

Pressure sensitive edges automatically stop the lift if they sense an obstruction

Joystick

The joystick makes for finger light control

Remote Controls

Wireless wall mounted or hand held remotes can be used to call and park the lift

Hinged Tracks

Manual and automatic hinged tracks fold away allowing full access to a doorway or open corridor

Diagnostics

The diagnostic display indicates lift status and provides service information

Seat Belts and Harnesses

All lifts come with a seat belt as standard to provide additional security with an optional range of speciality harnesses and child seats available*

Key Switches

Key switches are fitted to prevent unauthorised use of the lift

Footrest Raisers

Optional footrest raisers can help fold away the lift for those who have difficulty in bending

Engineering excellence and Quality Assurance

Engineering excellence is at the heart of the design and manufacture of MediTek stairlifts. We use quality components and proven technology to ensure many years of safe and reliable service.

MediTek invests significantly in product development and stairlift design and are proud to be leading the industry and achieving the very highest standards available.

All our stairlifts are made to order and are wholly manufactured and assembled in the UK. Each lift is thoroughly checked and tested before leaving the factory and comes with a full warranty and guarantee.

Peace of mind

MediTek takes its corporate responsibilities seriously and is an active member of the Lift and Escalator Industry Association (LEIA) and the British Healthcare Trades Association (BHTA) and comply fully with their articles of association and codes of conduct.

The technical information detailed on this page relates to the standard straight lift. Additional technical specifications on this and all other products and options are available upon request.
